

Steve Starna, M.Sc., P.Geo.

Branch Manager

ENVIRONMENTAL SOLUTIONS® Remediation Services

Steve Starna joined ENVIRONMENTAL SOLUTIONS® in 2008 and brings with him over 12 years of experience in the environmental consulting industry. He has worked as a Geologist and Project Manager for Phase II environmental site assessments, site remediation projects and groundwater monitoring programs ranging in scope from a few thousand dollars to over half a million dollars. He has had extensive experience managing contractors and tracking project costs. Steve also has experience liaising with regulators in Quebec such as the Ministry of Environment and various municipal authorities across the Province of Quebec.
