For Immediate Release

**ESRS DEVELOPS NEW HEALTH, SAFETY, ENVIRONMENTAL TRAINING AND
EMERGENCY RESPONSE PLANNING BRANCH**

Mississauga ON (March 10, 2009) - Mark Samis, Vice President of Operations for ENVIRONMENTAL SOLUTIONS® Remediation Services (ESRS) is pleased to announce the appointment of Captain John Hosty as Director for the new Health, Safety, Environmental Training and Emergency Response Planning branch.

John will be responsible for development and implementation of a broad range of health and safety and environmental response training and emergency response planning services that include hazardous materials handling; regulatory compliance; spill and emergency response; and confined space management.

“With John on our team, we can provide a higher level of technical training to our employees and clients,” said Mark. “Not only will John help us better develop and train our new and existing employees, he can assist our clients to better plan and manage their environmental exposures and their environmental emergency preparedness planning.

With long and extensive experience in waste management and hazardous materials, Captain Hosty, a Master Mariner, initiated and grew a successful hazardous materials response company, was Executive Director of the first Hazardous Materials Management degree program in North America and has developed numerous educational programs for universities and colleges including emergency response to hazardous materials, crude oil washing, confined space entry, petroleum tanker safety, major oil spill management, inland spill management, and transportation of dangerous goods.

A published author, John co-authored “A Practical Guide to Chemical Spill Response” and is a regular speaker at Hazardous Materials conferences in North America and runs workshops and seminars across Canada.

For more information, contact John at cell: 905 320 3861, fax: 905-524-2536, or email: JHosty@esrs.info.

About ESRS

ESRS, a wholly owned division of Cunningham Lindsey Canada Claims Services Ltd., is an environmental engineering, consulting and project management practice that focuses on the insurance and risk management industries. ESRS is experienced in a broad range of environmental practices including but not limited to, emergency spill response, Phase I, II and III environmental site assessments, remediation planning and monitoring, habitat restoration, litigation/subrogation support, quantum control & review, peer review and loss prevention. ESRS also provides fire cause determination through the Causation Forensic Specialists (CFS) division.

Services are delivered nationwide from our offices in Halifax, Saint John, Montreal, Ottawa/Gatineau, Brockville, Hamilton, Mississauga, North Bay, Thunder Bay and Calgary.

ESRS offers a one-stop, open-to-close approach that provides relief from liability issues through prompt action, detailed documentation and project oversight. From the second a loss occurs until the environment is restored, ESRS is working to cost effectively mitigate losses, close files and minimize long-tail liabilities.
